

SSR/ SR. Software Engineer Level 6,7,8

If you're passionate about technical innovation and making a difference in a meaningful field, don't overlook this career opportunity. As our new Software Engineer III, you'll have the satisfaction of seeing tangible results of your ingenuity as you develop features, experiences and integrations that delight the user. Your contributions will significantly impact Teladoc's brand as a trailblazer in healthcare technology.

You should have experience in a major backend framework, as well as a willingness to write unit tests, integration tests, and generally support our testing automation efforts. Front-end experience is a plus, but not required.

Daily you'll be designing and documenting new features, modeling database schema, building APIs or microservices, supporting/mentoring your teammates, and enhancing our development and delivery process through new tools.

In addition to strong technical know-how, core competencies that will help ensure your success in this role include innovative analytical and problem-solving skills, as well as the ability to work nimbly across multiple projects, with fast-paced development cycles. Accelerate your career with an industry leader experiencing astronomical growth and innovation in the field of high-tech healthcare solutions. Teladoc's talented and diverse tech team is making a positive impact on the lives of millions of people suffering from chronic health conditions. We'd like you to be a part of it.

Essential Duties and Responsibilities

- Build APIs for web and mobile consumption
- Develop integrations to enhance the user experience
 - Model database schema in MySQL
 - Design associated object models in Ruby
- Build easy-to-use, well-tested, scalable microservices
- Enhance our development and delivery process through new tools
- Work with QA to enhance product quality through automation
 - Analyze and fix bugs and other issues

Why Join Teladoc Health?

A New Category in Healthcare: Teladoc Health is transforming the healthcare experience and empowering people everywhere to live healthier lives.

Our Work Truly Matters: Recognized as the world leader in whole-person virtual care, Teladoc Health uses proprietary health signals and personalized interactions to drive better health outcomes across the full continuum of care, at every stage in a person's health journey.
